# New Training Available: Police Positional Asphyxia Defense Tactics

Presented by: Tony M. Sain

**Seminar/Training Summary Description:** With an increasing string of recent, high-dollar plaintiffs' verdicts, police civil rights cases based on positional asphyxia claims are on the rise. The "classic" defense plan is no longer working. Through this seminar, decision-makers will learn a new, more effective game plan for defending positional asphyxia cases: one that has proved its merit in multiple defense verdicts and defense-favorable outcomes. Through this training seminar, supervisors of civil litigation will learn how positional asphyxia really works; how to avoid the rabbit hole of "excited delirium"; key litigation pivot points to master in discovery/depositions; and techniques for simplifying such complex issues for lay jurors to follow more easily.

**Target Audience:** Police/Civil Rights case litigation managers, county counsels/city attorneys, police chiefs/sheriffs and/or senior executive command staff involved in managing civil litigation.

**Seminar/Training Date/Time:** 03/12/2026, 10a.m.-12p.m.

**Seminar Location:** 3333 Busch Rd, Pleasanton CA 94566 (Remillard Room).

**Seminar Cost:** FREE
